

Welcome to AfriChat.Net !

autor Webmaster

Since some time now it has become more and more difficult to find free chat sites. Many of you have contacted us asking us to create a free site, mostly aimed to Africa and Africans. We have searched for an appropriate chat software, which can be used as normal text chat, plus with the option of using webcams and micro-phones. The installation phase is nearly over, and we hope that it will be working fine. Please note that this site is for ADULTS only. We will reject any registration of users below 18 y.o. Do not hesitate to contact us with your comments. Happy chat !
